The software development teams are going to present the final version of their projects on 18st of January. All the required outputs for the final version of your report are given below.

For Agile Teams:

1. A two pages user requirement document
2. UML Diagrams to define system model
    a. Context Model (Fig. 5.1, Ch. 7.1),
    b. Use-case diagrams and their detailed tables (Fig. 5.5, Fig. 7.2., Fig. 7.3.)
    c. Sequence diagrams for all the use cases (at most 5 major use cases) defined in 1.c.
3. Is your project accessible to the potential users? Prove that. [Extra Credit +5 points]

Each team will have only 20 minutes to demonstrate their projects and to answer our questions. All the team members must be ready on their evaluation period. Please make sure that you will have a working system on presentation.

Important Dates

Deadline to submit related documents: **18.01.2022 - 23.59**

Presentation of the projects: **22.01.2022 [9.30 – 16.30]**
